Experience

Web Developer

WebGuru Infosystems | Mar-2023 - Present

- Developed and maintained scalable web applications using Laravel, React.js, and Node.js.
- Designed responsive and visually appealing user interfaces with Tailwind CSS and Material

UI.

- Integrated SQL and MongoDB for efficient data storage and retrieval.
- Built and deployed serverless solutions using AWS Lambda and managed storage with AWS S3.
- Collaborated with cross-functional teams to gather requirements, troubleshoot issues, and deliver high-quality solutions.

Full Stack Developer

Shivila Technology | Feb-2022 –Jan-2023

- Created dynamic single-page applications using MERN stack.
- Worked on API integrations and optimized database queries.
- Contributed to UI/UX enhancements for better user experience.

Projects

E-commerce Platform -

- Developed a full-stack e-commerce platform using React.js, Node.js, and MongoDB.
- Integrated a payment gateway and implemented authentication features.

Hotel Booking System

- Built a responsive web application for hotel listings and bookings using Laravel and SQL.
- Designed intuitive UI with Tailwind CSS.

Real-Time Chat Application

- Created a chat application using Node.js and Socket.IO.
- Implemented MongoDB for storing chat history and user data.

Bloomsward (E-commerce)

- An online shopping platform with a seamless user experience, optimized for high conversion rates.

Real State

- A property listing and management system for buying, selling, and renting properties.

Tifin (Restaurant)

A food ordering and delivery app designed for seamless restaurant management and customer experience.

Bar Squad (Event Management)

- A platform to manage and organize events, bookings, and bar services efficiently.

Wap OTT (OTT Platform)

- A streaming service for movies, TV shows, and exclusive content with user subscriptions.

File Ur Tax (Tax Services)

- An online tax filing system that simplifies tax submissions and compliance.

Gaibnica (E-commerce)

- A marketplace providing diverse product categories with an optimized shopping experience.

Super Market (Retail & Inventory Management)

- A digital platform for supermarket management, including inventory and billing.

Real-time Chat (Socket & Firebase)

- A live messaging system powered by Web Sockets and Firebase for instant communication.

Alex Vackard (Banking Recovery)

- A financial recovery service that helps users manage and recover banking issues.

KheloJeeto (Game Backend)

- A robust backend for online gaming, ensuring smooth gameplay and real-time updates.

BU Food Canteen (Canteen Management)

- A digital system for food ordering, payments, and inventory tracking in canteens.

Grow Sharp (School Management)

- A comprehensive school ERP system for managing students, teachers, and academics.

Additional Information

- Open to learning new technologies and frameworks.
- Highly motivated to contribute to innovative and challenging projects.
- Strong problem-solving and communication skills.
